LOCATION

The Port of Rye is a thriving commercial harbour for fishing and general cargo vessels with wharfage for ships up to 300ft. The port lies along the estuary of the river Rother on the south coast of East Sussex where moorings are home to Rye's fleet of fishing and leisure craft. The harbour itself is a mile or so downstream from the town of Rye, which is situated about 15 miles south of Ashford and 10 miles north-east of Hastings.
